

# APPLICATION FOR SNOW WINDROW REMOVAL ASSISTANCE

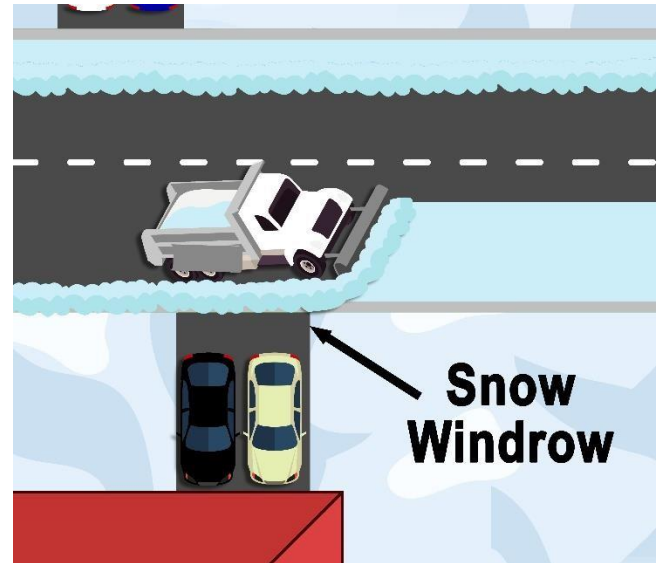

This form is for NEW applicants only. ALL sections of this form MUST be completed.

## What is a Snow Windrow?

A snow windrow refers to the pile of snow left across the end of a driveway created by a snow plow when it is clearing the road.

## About the Program

The City of Markham offers windrow removal to all residents who require assistance in removing their snow windrow, and who meet the requirements below. The City will remove **one car width** of snow windrow to assist qualified residents with their driveway access after a 7.5cm snowfall event, 4 hours after the fronting street is plowed. This does not include the snow windrow caused by sidewalk plows.

## What are the Requirements to Qualify?

In order to qualify for the snow windrow removal program, each person over the age of 12 years residing at the residence must meet **one** of the following requirements:

- Must be 60 years of age or older.
- If less than 60 years old, a current valid doctor's certificate must be provided confirming that the individual is unable to shovel snow.
- Persons 11 years of age and younger are exempt from having to complete this form.
- Persons between 12 and 59 years of age must provide both proof of age as well as a current valid doctor's certificate identifying that they are unable to shovel snow.
- Persons 60 years of age and older are only required to provide proof of age.

Additionally, the primary resident must provide proof of Markham residency (please see below for a list of valid documents). If your proof of residency (such as a Driver's License) also includes proof of age, then no other documentation is required.

If you cannot provide valid documentation, please call the Customer Contact Centre at 905-477-5530.

One of the following forms of ID is required **for each person in the residence**:

- Driver's License
- Birth Certificate
