### Sample of a Site Plan and Elevation Drawings:

CITY OF MARKHAM
DEVELOPMENT ENGINEERING SECTION, ENGINEERING DEPARTMENT
COMPLETE ENGINEERING SUBMISSION FOR SITE PLAN CONTROL APPLICATIONS

Owners/applicants are advised to consult with Engineering staff, prior to making a formal application, to determine any site specific issues and special studies that may be required to make a complete submission.

The following submissions: (A) Mandatory Engineering Submissions and (B) Other Engineering Submissions form a complete application for site plan control application for the Engineering Department. Other departments of the City, external jurisdictions or agencies may have other submission requirements in addition to the City's requirements.

(A) Mandatory Engineering Submissions

- List of mandatory engineering submissions including items like 'Site Plan Control Application', 'Site Plan Control Fee', 'Site Plan Control Fee Waiver', etc.

(B) Other Engineering Submissions

- List of other engineering submissions including items like 'Site Plan Control Fee Waiver', 'Site Plan Control Fee Exemption', 'Site Plan Control Fee Reduction', etc.

(C) Other Requirements

- List of other requirements including items like 'Site Plan Control Fee Waiver', 'Site Plan Control Fee Exemption', 'Site Plan Control Fee Reduction', etc.

Vertical list of 'A' characters on the left margin.

ENVIRONMENTAL SITE ASSESSMENT

Purpose

- To provide a preliminary assessment of the potential for contamination of the site and to identify areas of concern.
- To provide a preliminary assessment of the potential for contamination of the site and to identify areas of concern.
- To provide a preliminary assessment of the potential for contamination of the site and to identify areas of concern.

GEOTECHNICAL STUDY/SOIL REPORT

Purpose

- To provide a geotechnical assessment of the proposed site for the construction of a building.
- To provide a geotechnical assessment of the proposed site for the construction of a building.
- To provide a geotechnical assessment of the proposed site for the construction of a building.

When Required

The geotechnical study is required for the proposed site for the construction of a building. The study is required to provide a geotechnical assessment of the proposed site for the construction of a building. The study is required to provide a geotechnical assessment of the proposed site for the construction of a building.

Format

The geotechnical study is required for the proposed site for the construction of a building. The study is required to provide a geotechnical assessment of the proposed site for the construction of a building. The study is required to provide a geotechnical assessment of the proposed site for the construction of a building.

Principles

The geotechnical study is required for the proposed site for the construction of a building. The study is required to provide a geotechnical assessment of the proposed site for the construction of a building. The study is required to provide a geotechnical assessment of the proposed site for the construction of a building.
